Objectives

I am blessed to possess an inquisitive and creative mindset which allows me to grasp new concepts promptly and to find unique solutions to everyday issues. I ran an informal product design and development business for more than 4 years, the main activity of the business was taking client needs, conceptualizing, designing and facilitating the manufacturing of a product that would meet these needs within their budget. This involved me analyzing the work that needed to be accomplished, breaking it down and designing a product and facilitating the project of manufacturing it.

This sharpened my critical and conceptual thinking skills, it developed an appreciation for a broad company structures and greatly enhanced my readiness to work within a team. It built in me an internal accountability for deadlines and accuracy.

After reaching the age I set earlier in my life I have reprioritized my career path by take an extended leave from my entrepreneurial pursuit to focus establishing myself in a reputable company and eventually enter and grow in the legal field.

Education

- **Higher certificate in Project Management:** Msimbi training (current)
- **Bachelor of Law Degree:** UNISA (Current)
- **Higher certificate in Law:** UNISA (2016)
- **Certificate in Entrepreneurial development :** Raymond Ackerman Academy for Entrepreneurial development/ University of Johannesburg(2014)

Re: Close of YTIF Project YTIF-00074-CC2 (Eco-baby)

The Eco-baby (YTIF-00074-CC2) was approved for technology development at the CUT technology station. Initial desktop novelty search conducted by patent attorneys indicated that the development of the product will not infringe on any existing patent.

Shortly after the commencement of the technology development, the technology station brought to TIA's attention the contents of European Patent (EU).

Following deliberations between TIA, SABS (Business Coaching Report) and the technology station, TIA has come to the decision to close the project. This decision is based on three main factors which are listed below:

1. Project value
2. Cost of tooling
3. Market implication

Special Projects Unit
Signed by: *[Signature]* RD
Date: 19/02/14
Designation: (Acting) SM

CUT Technology Station
Signed by: *LUDRICK BARNARD*
Date: 19/2/14
Designation: DIRECTOR PDTS

Youth Technology Innovation Fund
Signed by: *Mphahlele Hlongwane*
Date: 19 Feb 2014
Designation: Director: chunter
